25-27 MARCH 2015 • Kuala Lumpur Convention Centre, Malaysia

A Great Start to EPRE 2015!

Tomorrow's Highlight!

EPRE 2015's Opening Ceremony will be officiated by YB Dato' Seri DiRaja Mahdzir Khalid, Deputy Minister of Energy, Green Technology and Water Malaysia.

The Opening Day saw **1,152** visitors, **50 B2B** meetings generated and many more!

Only two days left to attend the biennial show and network with your peers to learn the best practices in various areas of the Electric, Power & Renewable Energy Industry!

Visitors were treated to :

- **Smart Grids Talk 2015** by Fleming Gulf Conferences
- **Technical Seminar** by Tenaga Nasional Berhad (TNB), Suria Infiniti, UNEX (Spain) and UNITEN.
- **Power Quality Workshop** by The Electrical and Electronics Association of Malaysia (TEEAM)
- **Business Matching Platform** by Socialwalk

One Lucky Visitor walked away with a brand new Mini iPad at our Daily Lucky Draw today!

CONGRATULATIONS

Tenaga Nasional Berhad's Chief Executive Officer, Datuk Seri Ir Azman Mohd is named as one of the Top 50 Influencers in Asia's Power & Electricity Sector!

UTILITIES

Datuk Seri Ir. Azman Mohd
President & CEO
Tenaga Nasional Berhad

Tenaga Nasional Berhad (TNB) is Malaysia's largest electric utility and a leading utility company in Asia. TNB's core businesses are in generation, transmission and distribution of electricity in Peninsular Malaysia. TNB has an 80% equity share as well in Sabah Electricity in East Malaysia.

Datuk Seri Ir Azman Mohd was appointed President / CEO of TNB on July 1st, 2012 and sits on the Board of TNB and several other subsidiaries.

Datuk Seri Ir Azman held several key positions in TNB in the past 36 years. He began his career as an electrical engineer at District Office and gradually positioned himself to higher posts at various offices over the years, holding positions such as District Manager, State General Manager and General Manager of Strategic Management & Organization Development, Senior General Manager TNB (Operational Region 2), Vice President (Distribution) and Chief Operating Officer/Executive Director.

Datuk Seri Ir. Azman emphasizes on the importance of enhancing customer service level through the introduction of Customer Charter and Internal Service Standard. He also believes that a systematic model or plan that incorporates compliance, standards, consistency and service levels, together with the right people are vital to make it happen.

Korea Power Pavilion

Brought to EPRE 2015 by the Korea Electrical Manufacturers Association (KOEMA), the Korea Power Pavilion consists of 12 companies including KOEMA, bringing in the latest innovation and technologies from the Korean market.

Focused on carrying out projects related to the promotion and development of the electricity industry in Korea, the Korea Power Pavilion will feature companies including: Chardon Korea, Dong-A Electric Device, G-Tops, Jinkwang E&C, Namsung Industries, RPMTECH, S&S Inc, SUNGJIN General Electric, WOOJIN Precision & Industries, WOOKWANG Tech, YONG SUNG Electric and KOEMA.

EXHIBITING WITH TENAGA NASIONAL BERHAD (TNB)

TENAGA CABLE INDUSTRIES (TCI)

TNB ENERGY SERVICES (TNBES)

MALAYSIA TRANSFORMER MANUFACTURING (MTM)

TNB INTEGRATED LEARNING SOLUTION (ILSAS)

TENAGA CABLE INDUSTRIES (TCI)

Tenaga Cable Industries (TCI) is a subsidiary of TNB with over 50 years of expertise in the manufacturing and distribution of a wide range of power cables. Exhibiting at EPRE 2015, TCI is showcasing their products that are tested and certified by international bodies such as CESI of Italy, KEMA of the Netherlands, Kinetrics of Canada and Veiki-VnL of Hungary.

TNB ENERGY SERVICES (TNBES)

TNB Energy Services (TNBES) is a wholly owned subsidiary of TNB specialising in providing quality and reliable energy solutions related to renewable energy, energy efficiency and power quality. They are one of the pioneers of the Renewable Energy scene development in Malaysia.

MALAYSIA TRANSFORMER MANUFACTURING (MTM)

Malaysia Transformer Manufacturing (MTM) is also another wholly subsidiary of TNB that is exhibiting under TNB. Specialising in the manufacturing, installation, testing and servicing of distribution and power transformer, MTM as Malaysia's leading transformer manufacturer is the one-stop solution provider whose testing laboratory had received accreditation under ISO 17025.

TNB INTEGRATED LEARNING SOLUTION (ILSAS)

ILSAS is the official training centre for TNB and will be showcasing their specially tailored learning solutions that comply with global industry standards, both technological and regulatory. As the appointed Industry Lead Body for Electrical Programmes by the Human Resource Ministry of Malaysia, ILSAS will sure to bring you the latest and most effective learning solutions that they can offer.

HYRAX OIL – BETTER OIL BETTER CARE

Hyrax Oil manufactures top quality and high performance automotive, industrial and specialty lubricants. In addition, Hyrax Oil also produces and markets other petroleum-based products such as the transformer oil and cable oil. The products of Hyrax Oil adhere and exceed the performance requirements and standards of international organisations such as American Petroleum Institute (API) and European Automobile Manufacturer Association (ACEA). Hyrax Oil strives to be recognised in the industry for their dedication in the involvement of research and development (R&D), meeting customers' requirements and satisfaction as well as ensuring top quality of the products and services offered.

HALL 4, BOOTH NO. 4409

MIKRO - MOVING TECHNOLOGY

Mikro is currently at the forefront of the electrical distribution industry. At EPRE 2015, they will be showcasing their latest numerical protective relay range, digital power meters as well as their existing hot selling product range. Exhibiting at EPRE 2015 serves as an excellent platform for Mikro to showcase their latest innovative products designed to lead a new trend in the market. It will be a great opportunity for them to meet their existing clients and to hear their feedback directly as well as look for new opportunities in the overseas trade market.

HALL 4, BOOTH NO. 4901

SARAWAK ENERGY - POWER TO GROW

Sarawak Energy has chosen to exhibit at EPRE 2015 to introduce green energy, hydropower and the current and the future projects that are being undertaken by their company to ensure a sustainable development of Sarawak. They would like to introduce the company products, brand and expose the company to the energy industry through EPRE 2015. Sarawak Energy is eager to discuss about their future projects and promote the company's presence in the region. Sarawak Energy are also aiming to generate new leads in the market and showcase their current initiatives in power and renewable energy especially in Borneo.

HALL 4, BOOTH NO. 4401

SHAMAWAR ELEKTIKA - YOUR POWER UTILITY SOLUTION

Incorporated in 1994, Shamawar is focused on the supply, testing and commissioning of Test Measuring Instruments, Electrical Accessories and Safety Electrical Products. At EPRE 2015, their objective is to provide a 1 step solution on power utility.

EPRE 2015 is a great opportunity to showcase their products while meet existing and new customers as well as to explain the benefits of the products. They are able to conduct a market survey easily as well through EPRE 2015, providing them a right platform to meet distributors and principals from the same industry.

HALL 4, BOOTH NO. 4411

GO GREEN WITH STRAITS DESIGN

Straits Design promotes sustainability, especially in the area of energy efficiency. In order to meet their objective at EPRE 2015 this year, they will be showcasing their latest innovations, design creations and cutting edge, cost effective lighting solutions from its in-house Research & Development department. Their main objective in participating at EPRE 2015 is to promote their products to the trade visitors and educate them on the usage of LED lighting and energy saving products to help sustain our surroundings and environment.

HALL 5, BOOTH NO. 5501

UNIVERSAL CABLE - SAFETY THROUGH QUALITY

Sarawak Cable Berhad - Group of Companies are the largest cable & wire producer in Malaysia and South East Asia. It is also the parent company of Universal Cable (M) Berhad and Leader Cable Industry Berhad. They have been involved in the cable business for more than 38 years producing an extensive range of telecommunication cables such as copper and optical fibre cables, bare conductors and XLPE and PVC insulated power cables from low, medium to high voltage products. Universal Cable manufactures cables and wires for many different industries including power generation, transmission & distribution, oil & gas, marine & shipboard, telecommunication, control & instrumentation, automotive industries as well as commercial and housing developments.

Their portfolio includes cables for instrumentation and for distribution of electricity from main power generators all the way to the electricity sockets we use on a daily basis.
