## EXHIBITOR'S RECEPTION AT THE TENAGA NASIONAL BOOTH!

The lucky draw took place during the exhibitor's reception

TENAGA NASIONAL BERHAD (TNB), MALAYSIA'S PREMIER ELECTRICITY PROVIDER IS PROUD TO BE THE HOST OF THE ELECTRIC, POWER & RENEWABLE ENERGY MALAYSIA 2015 ON THE 25TH TO 27TH OF MARCH 2015 IN KUALA LUMPUR CONVENTION CENTRE.

THE BREADTH OF OUR WORK REFLECTS OUR RELENTLESS COMMITMENT IN PROVIDING BETTER ENVIRONMENT FOR A BRIGHTER FUTURE. TALK TO US FOR BRIGHT IDEAS TO GROW YOUR BUSINESS EFFICIENTLY. COME VISIT US AT HALL 4, BOOTH 4501, KUALA LUMPUR CONVENTION CENTRE. WE LOOK FORWARD TO SEEING YOU THERE.

## ENERGYPAC – ENERGY WORKS WONDERS

Since 1982, Energypac has pulled out all the stops to help boost the power engineering business in Bangladesh. At EPRE 2015, Energypac will be showcasing their latest products, the CRT, CT-PT and Busbar trunking. These products replace the distribution of oil type transformers. The products are maintenance and fire free, while Busbar Trunking is used to replace the wiring system.

Energypac believes that their products have the potential to be developed in the Malaysian market and are expecting to meet a lot of new potential customers, at the same time to increase their brands' awareness at EPRE 2015.

HALL 5, BOOTH NO. 5004

## ENERSYS – INDUSTRIAL BATTERY SOLUTIONS

EnerSys is the world's largest industrial battery maker. EnerSys is promoting their stored energy solutions to be integrated with renewable resources and their premium flagship product, the Thin Plate Pure Lead (TPPL), which is specifically engineered with very thin plates hence the high service surface area for higher reliability and increased performance for use in different applications. It is suitable for solar hybrid applications, branded Powersafe® SBS and is manufactured in Europe and US.

EnerSys' participation in EPRE 2015 is also with the objective to introduce their new stored energy solutions - Nickel Zinc. Nickel Zinc is smaller and lighter, high in power density, good life cycle and excellent charge acceptance, and best of all it is 90% recyclable. They are also promoting batteries which are marketed principally under the PowerSafe, DataSafe, Hawker, Genesis, ODYSSEY and CYCLON brands.

## EXPLORE ADVANCED TECHNOLOGIES WITH AZBIL

Azbil will be showcasing their Building Automation System here at EPRE 2015. Through their participation, they would like to increase their brand awareness and provide first-hand information on the system. According to George Perreire, Manager of Genset Division, "We participate in EPRE 2015 as how we have done over the years because it serves as an avenue that meets the expectations of the varied participants. EPRE 2015 is an avenue of sorts, where one gets to meet consumers, while demonstrating innovations and R&D progress of every genuine manufacturer who wants only to produce the best for the ever changing global market."

HALL 4, BOOTH NO. 4809

## HONG SENG POWER

Hong Seng Power specialises in the complete range of cummins engine driven gensets and have improved on their products, while making progress over the years using the Isuzu 4JB1 series from low range models up to 40KVA and their PT SC mid-range series. They also use a very reliable and well known engine drive – manufactured by Shanghai Diesel Engine Company, one of China's best. The 4JB1 Isuzu and PT SC Series are very resilient and durable engine drives designed especially for the task of Power Generation.

HALL 5, BOOTH NO. 5002

## POWERCAM'S GLOBAL COMMITMENT THROUGH POWERMAT

Under the brand name of POWERMAT, the company has been operating for the last fifteen years in India and international markets, producing a wide range of control panels and distribution board components like Stand-off Insulators and Busbar Supports in DMC and SMC, MV Insulators, Panel locks, Hinges, Handles, Air Vents, Terminal Connectors, Brass terminal Bars and PVC heat Shrinkable Sleeves. From the time of its inception, the company has grown in its designing, engineering, tooling, manufacturing and testing capabilities to become one of the market leaders in the field. POWERMAT aims to continue to grow exponentially through major expansion programmes in the coming years by introducing a range of products for electric panel boards.

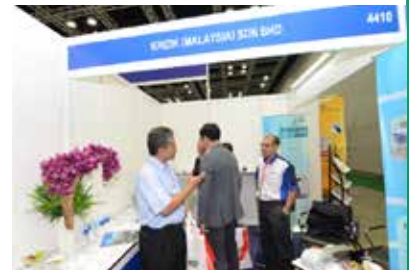

"We already have clients in Malaysia, by joining the exhibition we get to meet them personally and offer more of our range to them, as well as to promote our brand to the market in this region," says Shanjeev Sharma, Manager of Exports.

HALL 4, BOOTH NO. 4911

## QUALITY COMES FROM KRIZIK

Krizik (Malaysia) Sdn Bhd will be showcasing their electronic meter as well as the upcoming meter based on the Advanced Metering Infrastructure (AMI). Their aim at EPRE 2015 is to share the technology and solutions in the metering industry and would like to use this event as a platform to educate the trade visitors on energy management. EPRE 2015 will be one of their paths for business growth as well as to expand their customer base locally and internationally. Dato' Hj Zulkifli Ismail, Managing Director of Krizik (Malaysia) Sdn Bhd said, "We believe in INNOVATIVE thinking and pushing the boundaries of success".

HALL 4, BOOTH NO. 4410

## SICK – SENSOR INTELLIGENCE

SICK is one of the world's leading producers of sensors and sensor solutions for industrial applications. SICK is a technology and market leader in Factory and Logistics Automation as well as Process Automation.

By participating in EPRE 2015, SICK would like to make their presence and brand's name known both locally and internationally. They also hope to get the chance to explore the market in order to provide better products for their customers.

HALL 4, BOOTH NO. 4301

## TEKNO BUMI BRINGS SIGNATURE RED POWER TOOLS

As the corporate agent for Milwaukee, Tekno Bumi brought in the latest range of hand tools, relevant to the needs of electrical industry here to EPRE 2015. Milwaukee manufactures its signature red power tools in both 120 and 230 volts for worldwide use. The extensive product line covers over 500 different power tool models ranging from driver drills, hammer drills, rotary hammers, band saws, grinders and sanders to tools designed for specific applications such as diamond drilling rigs, Steel Hawg® cutting systems, Sharp-Fire® screw-shooter systems and cordless caulking guns.

"We are already offering comprehensive portfolio of services in energy, railway and telecommunications industry. Joining EPRE 2015 is a step for us to venture into the electrical industry. We are here because we want to provide products that are relevant to the industry, especially the latest range of hand tools," said Hj. Mohd Azhar bin Khalid, Managing Director.
